

## Indian Standard

### SAFETY OF TOYS · MECHANICAL AND PHYSICAL PROPERTIES

#### Part 1: Safety Aspects

#### 1 SCOPE

Applies to all toys manufactured or imported for children up to 14 years of age.

#### 4 SAFETY CRITERIA

##### Clause 4.4 Small Parts and Choking Hazards

Toys intended for children under 36 months of age shall not contain detachable small parts that fit entirely within the small parts cylinder of internal diameter 31.7 mm and depth 57.1 mm.

##### Clause 4.5 Sharp Edges

Accessible edges of toys shall not present an unreasonable risk of injury during normal use.
